

10 Community Service-Involvement

Community Recognition Program

Police, teachers and firefighters serve a vital and important role within our communities. Police and firefighters risk their lives to protect us, and teachers teach our children how to become useful, productive members of society. Community recognition of these individuals, who are dedicated workers in their field, is important. This is our way of saying “Thank You” for a job well done. The person can be a community volunteer or a paid professional. We’re looking for dedicated workers to recognize.

- Persons nominated by your Subordinate/Community Grange can be recognized at the Pomona Grange level as well. Grange Open Houses are an excellent opportunity to recognize outstanding community workers. Nominees in this program **do not have to be Grange members** to be eligible for this award.
- The nomination form will be sent to the Subordinate/Community Grange Secretary. It should be completed and mailed to the State Directors by **March 31**.
- The State Directors will form a judging committee to choose a state winner in each category and present the names of the winners at the annual state session.
